Muhammad Rehan

House # P-1622, Muhalla Aram bagh, Asghar mall road, Rawalpindi, 47000

Dear Sir/Madam;

I have recently done Training of **CCNA SECURITY IN ROUTING AND SWITCHING** with strong background in computer. I have done many **certifications** in Networks from single institute and have gained hands-on experience on virtual labs in learning how to **exploit the weakness in computer systems and prevent computer system from different Problems** . I understand this career requires a continuing education as hackers gain new ways to infiltrate computer systems, those of us in computer Network security and cyber security need to be one step ahead to keep them from success.

My strength lies in **problem solving** and I love the challenge of being one step ahead of hackers who want to break into computer system. I am also a quick learner which means I can quickly adapt to new methods. I love to administer and monitor the network.

I would welcome the opportunity to talk to you and I hope that you will invite me for an interview. I thank you for your time and looking forward to hearing from you.

Sincerely,

Muhammad Rehan

MUHAMMAD REHAN

Objective

To serve a quality conscious organization by devoting all my strength, knowledge, commitment and energies with confidence and uphill struggle. I am self-motivated and able to work both independently and as collaborative team member. I will prove myself as a creative, innovative and multitasking engineer for the organization. Whereas can perform at a high level, to watch every little detail, tightly manage the quantitative, qualitative and timely base assignments and relating issues, to anticipate and satisfy the expectations of the management.
